

PRODUCT ASSEMBLY

CARE AND USE INSTRUCTIONS

1. Remove the wrapper from the filter
2. Insert top of filter into the black Quick Connect at the end of the tubing. It will click when correctly seated.
3. Put the filter directly into the water* (pre- filter, if needed). Squeeze the pump several times to prime the filter. Discard the first cup of filtered water.
4. Continue to squeeze the pump to filter the desired amount of water.
5. Let the filter air dry completely before storing away for long periods of time.
6. Replace filter when it becomes too difficult to get water out when pumping.

* Excluding saltwater

THESE PRODUCTS USE THE SAME FILTER AS THE RAPIDFLO SURVIVAL FILTER
